

Student Transition System for the School of Physics

Hi there. My name is Euan and I am a Level 4 Computer Science student. Part of my Level 4 project is to develop a student transition system for the School of Physics. That is, I have to build an application to help students in chemistry transition from high school to university Physics. This application will also include tools to help students study and retain information. Before I can begin development, I am running research using papers and existing technologies, to see what is required and what works well from a system like this. That said, if you could take the time to fill out this survey to help me understand chemistry students transition into university, as well as their study techniques in order to retain information. Thank you in advance :)

* Indicates required question

1. Are you a home, rest of UK & Ireland, or international student? *

Mark only one oval.

- ☐ Home (Scotland)
- ☐ Rest of UK & Ireland (England, Ireland, Wales)
- ☐ International

2. What level are you currently in? *

Mark only one oval.

- ☐ Level 1
- ☐ Level 2
- ☐ Level 2 (Faster Route)
- ☐ Level 3
- ☐ Level 4
- ☐ Level 5
- ☐ Postgraduate

3. Are you a Physics major, or are you taking it as an elective? *

Mark only one oval.

- ☐ Major
- ☐ Mandatory Elective
- ☐ Elective By Choice

4. What do you wish you knew before starting university level Physics? *

5. Describe how you study to retain information as a Physics student *

6. Do you believe a mobile app or web-page would be a better format for a student transition system? *

Mark only one oval.
