Hi Username - Welcome to Prepare

Welcome to Prepare, a system to help you get setup and ready for starting you university journey. This system is specialised to the schools of chemistry and physics. Here you will find advice and tools to help you get set up for starting uni, as ell as useful areas for throughout your time in your first year, such as study tools and advice. We hope you find this system useful in helping prepare you to be a future world changer.

Extracurriculars

An important part of university life is making sure you have time for you. Your interests, hobbies, sports, or even finding something new. This page provides links to find more information about Chemistry and Physics societies, student unions, sports, and the student representative council. All play a key part in making your university experience more than just your degree, and offer a wide range of opportunities for you to take advantage of.
