Extracurriculars

An important part of university life is making sure you have time for you. Your interests, hobbies, sports, or even finding something new. This page provides links to find more information about Chemistry and Physics societies, student unions, sports, and the student representative council. All play a key part in making your university experience more than just your degree, and offer a wide range of opportunities for you to take advantage of.

Student Bodies

Glasgow University Union (GUU)
